Mansi Shah

Product Designer

EXPERIENCE

Senior Product Designer @ Qualtrics

May 2022 - Present

- Lead product design for Workflows, used across Qualtrics's global base of ~20,000 customers in over 100 countries
- Owned Describe to Design, a natural-language feature that allows users to build and configure workflows with the help of an assistant - increased Workflows engagement by 60%
- Built an information hub that serves as a single source of truth for the UX team, centralizing design resources, documentation, and past meeting recordings

Product Designer @ PitchBook

Jan 2020 - May 2022

- Led research, discovery, and design for Market Intelligence features
- Partnered with product managers and engineers to strategize & define projects goals and objectives
- Built personas, empathy maps, and journey maps to align cross-functional teams around user needs

Product Designer @ American Family Insurance

Jun 2019 - Nov 2019 *(contract)*

- Conducted user research and heuristic evaluations to identify friction points in the legacy onboarding system, informing design priorities.
- Applied UX best practices and accessibility standards to ensure an inclusive experience for a broad range of users for desktop and mobile

Contract Product Designer @ Intelage

Jan 2019 - June 2019 *(contract)*

- Mapped out the primary workflows for users to identify ways to improve task efficiency and reducing user onboarding time for suppliers, buyers, and partners

Design Intern @ SaRA Health

Oct 2018 - Dec 2018

- Redesigned SaRA Health's landing page for physical therapists and patients and developed new UI designs for the mobile application

George Washington University

Sept 2013 - May 2018
