

Mansi Shah

Product Designer

EXPERIENCE

Senior Product Designer @ Qualtrics

May 2022 - Present

- Led design & delivery for features within the Workflows team
- Designed end to end experiences for projects like Describe to Design, data transformations, Omni-channel Experience Management (OXM), CrossXM reporting tool
- Conducted usability tests, user interviews, and concept testing to clarify direction & center the user in the way we design

Product Designer @ PitchBook

Jan 2020 - May 2022

- Led research, discovery, and design for Market Intelligence features
- Partnered with product managers and engineers to strategize & define projects goals and objectives
- Collaborated cross-functionally to create personas, empathy & journey maps to best illustrate

Product Designer @ American Family Insurance

Jun 2019 - Nov 2019 (contract)

- Conducted user research and heuristic evaluations to identify friction points in the legacy onboarding system, informing design priorities.
- Applied UX best practices and accessibility standards to ensure an inclusive experience for a broad range of users dor desktop and mobile

Contract Product Designer @ Intelage

Jan 2019 - June 2019 (contract)

- Collaborated closely with product managers and engineers in a fast-paced startup environment to translate business requirements into intuitive, user-centered solutions
- Mapped out the primary workflows for users to identify ways to improve task efficiency and reducing user onboarding time

Design Intern @ SaRA Health

Oct 2018 - Dec 2018

- Redesigned SaRA Health's landing page and developed new UI designs for the mobile application

George Washington University

Sept 2013 - May 2018
